STORES

The 3D printed wide vision caboose from Paradise Car & Locomotive is selling very well. The first 25 sold out and we have received 25 more and I expect to sell out in the next few months. I plan to order an additional 25 models when supply get low.

We have added additional sizes to our clothing line and sales have been steady. Will consider a new T-shirt for 2026.

Sales of the 40 foot HO boxcars from Fox River / Accurail have been slower that expected. But eventually we will sell them out. A total of 200 were ordered, 50 each of four different road numbers.

Orders through Square have picked up in the past year and are fairly steady with 2 or 3 orders a week. One reason I believe is that we have merchandise to sell again!

Train Shows. Last weekend (March 21) Jamie Stewart represented the society at the NMRA Division 8 train show in Louisville. The January trains show in Lebanon was canceled due to inclement weather. Kevin Heggi and Wayne Zeman represented the society at the LaPorte train show in February and Brent Bach has offered to help promote the society at trains shows in the South Bend area.

Do we (MRHTS) have any interest in having Paradise produce Business Car No. 2? Passenger cars are their speciality and are receptive to the project.

Respectfully Submitted

A handwritten signature in cursive script that reads "Jim Graig". The signature is written in black ink and is positioned below the "Respectfully Submitted" text.
